## ON MOTHER'S DAY WHY NOT SHARE THE SECRET OF HOW DEEPLY YOU CARE?

*Beauty secrets have always been passed on from mother to daughter and vice-versa. Youthful looks can be genetic good fortune, but great skin - like the best mother-daughter relationship - is based on deep down nurturing and support. IMEDEEN works hard at doing just that with two skin rejuvenating supplements that work on the inside to enhance skin quality from top-to-toe*

IMEDEEN Time Perfection™ is a gift for grown up girls - a 90 day course of two tablets daily that promises a visibly softer, smoother and more youthful complexion. The essential building blocks of the skin are strengthened and protected deep down in the dermis – the invisible layer where the first signs of aging begin.

IMEDEEN Prime Renewal™ is a firm favourite with more mature mums – a 90 day course of two tablets twice daily, specially formulated to nourish and improve skin quality post-menopause. Collagen formation and skin cells are stimulated on the inside to leave skin visibly rejuvenated, toned and lifted on the outside.

## IMEDEEN – NOURISHING SKIN FROM WITHIN
